

## Payment Information

Thank you for visiting our website. Your business is very important to us and for your shopping convenience we offer the methods of payment as described below.

All pages in the ordering process where you provide personal information use SSL (Secure Socket Layer) encryption. SSL codes information transferred between you and the server and renders it unreadable to anyone intercepting the information.

- **Credit cards (Visa, Mastercard, and American Express):**

All Credit Card payments will be submitted via our online gateway encrypted by SSL.

Your credit card information will not be saved by us at anytime.

As a safety measure against credit card fraud we require the corresponding address, expiration date and the CVC verification number (3 or 4 digits that can only be found on the reverse side of your credit card). This ensures that the credit card is actually physically available to the person ordering the goods.

- **C.O.D (Collect on Delivery; Cashiers Check or Money Order only – no personal checks or cash):**

Only within USA! The invoice amount will be collected upon delivery and you will have to pay the amount in full to the UPS driver, so please have a Cashiers Check or Money Order ready (Please note: UPS does not accept cash or personal checks). You will receive the UPS tracking number and package arrival date via e-mail.

- **PayPal:**

After making your purchase and going through the checkout you will be automatically redirected to the paypal website where you must log in to your account to complete the transaction. We will not ship out any orders until we receive the payment verification from paypal.

**Please note:**

- We have a minimum order of \$ 25.–
- Applicable sales tax may apply to orders shipped to California
- We must receive payment before we ship out any orders.  
Shipping costs are non-refundable; there is a \$ 25.– restocking fee for any returned or undeliverable items.

Thank you again for your business and we look forward to working with you.
